## **STATUS OF BIOLOGY, ECOLOGY, MIGRATION AND MORTALITY OF OLIVE RIDLEY TURTLES FOUND ALONG ORISSA COAST, INDIA- A RESUME**

<b>1. General: Marine Turtles in India and Orissa</b>	Pages 1-4
1.1 Marine turtles in Indian history	
1.2 Status of olive ridley population and its main habitats in India	
1.3 Marine turtle protection measures in India	
<b>2. Orissa coast and Turtles</b>	4-9
2.1 The Coastal State of Orissa	
2.2 Turtle Nesting and Breeding Grounds in Orissa	
2.3 Nesting beaches	
<b>3. Recent Research on Olive ridleys in Orissa coast</b>	9- 14
3.1 BASIC KNOWLEDGE ON OLIVE RIDLEY SEA TURTLE	
3.2 THE OCCURRENCE OF OLIVE RIDLEYS IN ORISSA	
3.3 Major Findings from Biological Studies on Orissa's Olive ridley	
3.4 The recommendations of scientists for conservation of Olive ridleys	
<b>4. WLI's studies</b>	14-16
4.1 The WLI's research on Olive ridley sea turtles- An Overview	
<b>5. WLI's study on sea turtle mortality in Orissa coast</b>	16-18
5.1 SEA TURTLE MORTALITY IN ORISSA- ABIOTIC & BIOTIC FACTORS	
5.2 Further Egg loss due to beach erosion	
5.3 Disorientation of the hatchlings	
5.4 Mortality of adult olive ridleys in Orissa	
<b>6. WLI's Management Strategies</b>	18-22
6.1 Management Strategies mooted by WLI	
A. ESTABLISHMENT OF A NETWORK OF PROTECTED AREAS IN ORISSA FOR SEA TURTLE CONSERVATION	
B. REDUCING THE MORTALITY OF ADULT SEA TURTLES IN ORISSA	
C. PROTECTION OF SEA TURTLES IN THE COASTAL WATERS	
D. MINIMISING THE IMPACT OF ARTIFICIAL ILLUMINATION	
E. IDENTIFICATION OF THE EXACT NON-BREEDING GROUNDS OF OLIVE RIDLEYS NESTING IN ORISSA	
F. CONTROL AND REALIGNMENT OF COASTAL CASUARINA PLANTATION	
G. RESEARCH IN SUPPORT OF CONSERVATION	
<b>7. Tagging Studies</b>	22-27
7.1 Tagging Operation- Results and Findings	
7.2 Nest site fidelity and movement between the nesting beaches	
7.3 Migration	
7.4 Earlier and Recent Tagging Studies	
<b>8. Olive ridleys, off the shore and on the shore</b>	27-31

8.1 Olive ridleys in the off-shore waters	
8.2 Olive ridleys on the shore	
<b>9.1 Satellite tracking of sea turtles</b>	31-32
<b>10.1 Gahirmatha faces ravage of nature</b>	32-33
<b>11.1 A Table on Sea Turtle Conservation Measures in India</b>	33-34
<b>12.1 ROLE OF COAST GUARD</b>	35
<b>13. Turtle and Fisheries</b>	35-39
13.1 Turtle Mortality from Incidental Catch in Fishing Operations	
13.2 Orissa's marine fishery:	
13.3 Trawlers	
13.4 Description of the net used	
13.5 Turtle excluder device (TED)	
13.6 Functioning of TED	
13.7 The history of TEDs	
13.8 Impacts of TED on the fisheries	
13.9 Summary of the findings of WLI Study on TEDs	
13.10 RECOMMENDATIONS of the WLI Study on TEDs	
<b>14.1 Further on Factors of Turtle Mortality</b>	39-40
<b>15. Views of Wildlife Wing of Orissa on Turtle Protection</b>	40-42
15.1 Views of Wildlife Wing of Orissa Government on Turtle Protection	
15.2 Existing acts and rules for protection of sea turtles and their habitats in Orissa	
15.3 Further action needed to conserve marine turtles	
<b>16. Views of Sebastian Mathew submitted before international expert panel</b>	42-49
16.1 Deposition by Sebastian Mathew (International Collective in Support of Fishworkers) before an Expert Consultation held at Rome in March 2004 on sea turtle and fisheries interaction in the context of Orissa	
16.2 Proposed proscription of gillnets	
16.3 Appropriate Strategy for sustainable management of marine eco-system	
16.4 Mr. Sebastian's conclusion	
<b>17. BEYOND TED AND UNTO TRAWL GUARD</b>	49-57
17.1 Background to the TED controversy	
17.2 Application of TED in India with special reference to Orissa coast	
17.3 Trawl Guard comes on the scene	
17.4 WWF-India comes forward to support the Project for field-trial of Trawl Guard	
17.5 The Comparative Field-Trial on 11 <sup>th</sup> of January 2006	
17.6 Findings of TG Trial	
17.7 Analysis of the Findings	
17.8 Trawl Guard publicized at home and abroad	

17.9 Looking ahead, after Trawl Guard experiment

<b>18.1 Views of Ms.Aarthi Sridhar Scientist and a member of Orissa Marine Resource Conservation Consortium (OMRCC)</b>	57-60
<b>19.1 Views of Scientist Karthik Shankar of OMRRCC</b>	60-61
<b>20. PROPOSED MEGA-PROJECTS AND OLIVE RIDLEYS</b>	61-68
20.1 Dhamra Port	
20.2 Proposed Oil Exploratory Drillings by Reliance	
20.3 Further comments on Reliance's Oil Exploration Proposal	
20.4 Further more on Oil drilling projects in Orissa coast	
<b>21. Current Policy of Orissa Govt on Sea Turtle Protection</b>	68-71
21.1 Current thinking and action by Govt of Orissa on protection of Olive ridley sea turtles	
21.2 Turtle Nesting Figures	
21.3 Turtle Casualty Figures	
21.4 Role and Responsibilities of Different Agencies	
A. Wildlife wing of Orissa Forest and Environment Department-	
B. Fisheries Department, Orissa	
C. Coast Guard, Paradip	
D. Police	
E. ITR/DRDO	
F. Paradip Port	
21.5 Trial of Trawl Guard
